

EXECUTIVE BRIEF

ISO 56001

Innovation Management

83 h

Estimated timeline

6-8 months

CONTEXT

Innovating systematically is a competitive advantage that is hard to copy. ISO 56001 structures innovation as a managed, measurable process and eases access to R&D tax deductions and public grants.

WHAT THE STANDARD REQUIRES

- An idea and opportunity management process
- A prioritized innovation project portfolio
- Strategic intelligence and environment scanning
- Management of external collaboration and IP
- Innovation return indicators and measurement
- A culture and leadership geared to innovate

IMPLEMENTATION PHASES

- | | | |
|---|---|------|
| 1 | Diagnosis
Innovation maturity and context analysis | 3 wk |
| 2 | System design
Innovation processes and indicators | 5 wk |
| 3 | Implementation
Portfolio, scanning and collaboration | 7 wk |
| 4 | Internal audit
Verification and corrections | 2 wk |
| 5 | Certification
Support during the external audit | 2 wk |

Estimated timeline: 6-8 months

RETURN FOR YOUR ORGANIZATION

- ✓ Systematic, measurable and repeatable innovation
- ✓ Better access to R&D deductions and grants
- ✓ Sustainable competitive differentiation
- ✓ Attraction and retention of innovative talent

FREQUENTLY ASKED QUESTIONS

Does it work for SMEs?

Yes; the system scales to the organization and especially helps SMEs structure their innovation.

Does it help with R&D tax deductions?

It eases the traceability and evidence of projects, the basis for deductions, though it doesn't replace them.

Is it certifiable?

Yes, 56001 is the certifiable version of the 5600x innovation family.
